OUTDOOR PROTECTION

Warmer months mean more people are enjoying time outdoors, remember security doesn't stop at the front door. Choose ABUS's extensive range of outdoor weather resistant padlocks. Ideal for locking boats, bikes, trailers, gates & more.

With highly corrosion-resistant internal components and state-of-the-art plating, these padlocks are ideal for securing items exposed to the weather. ABUS is your answer for outdoor locking applications.

A customer is using the ABUS Mariner locking cray pots 30 feet underwater! What's the strangest thing you've locked with an ABUS padlock?...

WORLD FIRST OBD SNOOP SOLUTION

Advanced Diagnostics OBD Snoop ID47/49-IE Device

Silca announce the release of a new world first OBD snoop solution to facilitate cloning of ID47 / ID49E transponders. This new OBD Snoop works in conjunction with either RW5 or Smart Aerial Plus and extends the capabilities of both tools. The ID47/ID49-IE transponder cover a large segment of the market and in our region are utilised across the very popular Ford Ranger, Everest, Transit and F-Series trucks. The cloning solution is for bladed keys and is compatible with the Silca GTI Ultra universal chip.

SD856912AD

RW5 & SMART AERIAL PLUS NEW FEATURES

Head over to the LSC Website or CarLab for full details

RW5 & SMART Aerial Plus users are already taking advantage of great new features

Silca keep adding new features to their cloud connected cloning devices, and users can automatically use the extra functions seamlessly and without needing to think about updates.

From Version 1.0.1075, new chip generation for Mahindra vehicles has been added.

In the same version, cloning for additional Hyundai and Kia models using the ID49-1C transponder identification has been added. When used in conjunction with the new GTI Ultra chip, the possibility to clone more vehicles, more reliable, more often – and quicker than ever before just keeps growing.

MCGRATH LOCKS KEYSAFE

The KEYSAFE by McGrath Locks is a stylish and feature rich key box that can be used to securely store a spare key or access card to your property. A great addition to the home, office or business, this 5 in 1 digital key safe lock provides a versatile and convenient method of entry that allows you to easily manage who has access to your property.

Utilising the powerful TLock App, lock and user settings are easily configured and managed. Access can be provided to family and visitors alike through pin code, RFID credential, eKeys managed via BLE and mechanical key override. By adding a McGrath Locks Wi-Fi gateway you can remotely unlock the KEYSAFE from anywhere in the world using the TLock App.

LSC IS PROUD TO BE CELEBRATING 20 YEARS IN NEW ZEALAND

Prior to 2004, customers purchased LSC-distributed product from other distributors, and we knew there was a strong desire to work with LSC directly.

New Zealand (Luke Hopewell and Vasant Vale.)

We wanted to help customers over the ditch access the kind of Account Management and Support we offered in Australia, so in late 2003 a plan was hatched, and we opened our new operation in Glenfield, Auckland, in March 2004.

From those early days, we dived into the market and quickly got in front of customers to help them access the best range of products in the industry. We attended trade shows and events and brought our 'road-show' to venues all over the country.

The initial team was small, but from those early years, we still have a few passionate, dedicated people who are involved in our business today in

We brought our original Show-bus over, and it made a couple of laps of both islands (and had its air-conditioner famously trashed by Kea parrots who chewed through hoses so it never worked again – quite the

surprise to the Aussies who thought only they had aggressive natives).

Today, our business in New Zealand is thriving. We quickly outgrew our original location in Argus Place, and the Poland Road site is now full of great product sourced from all over the world.

Our local technical support and account management team are highly trained industry experts, and we're helping our customers evolve their business with electronic security solutions while maintaining traditional product innovation and quality.

We sincerely thank our customers for your ongoing support, and we hope to see you again at an LSC or industry event soon.

Thank you for all of your support!

- The LSC NZ Team

Borg Locks are the market leader in innovative design and manufacture of high quality mechanical push button access control. With their latest “Easicode Pro” series a hit with Locksmiths and end users.

The range was designed to eliminate traditional code changing issues by being able to change the code on the door in seconds. No tools needed, no need to remove the lock from the door, just by using the change key and in seconds the code is changed.

Designed to make access easier.

We're **excited to welcome** McGrath Locks to our product lineup at LSC!

McGrath Locks offer a trade grade range of innovative and stylish locking solutions, designed for both residential and light commercial use.

Known for their advanced technology, McGrath Locks provide smart access solutions that eliminate the need for physical keys, providing a sleek and secure way to manage entry.

McGrath Locks has the widest variety of keyless solutions to suit almost every application you are likely to encounter. For Locksmiths, staying ahead means offering cutting-edge solutions that combine functionality and style with ease of use and reliability.

McGrath Locks blend security and convenience and suit a number of locking types such as tubular latch, euro mortice and commercial style mortice locks.

From digital locks and key storage to hardwired access solutions, you can be assured the McGrath Locks family has you covered.

H A P P Y N E W Y E A R

Happy New Year everyone! We hope you all had a safe and enjoyable break, and are looking forward to the year ahead.

We have a jam-packed year of events, with an ongoing focus on training and helping you to upskill and take advantage of the latest product opportunities. We've got a regional focus this year and our team will be out and about like never before. Our mobile training vehicle (STU) is being refitted over the break and will hit the road in February.

Celebrating 20 years in New Zealand, it's humbling to reflect on how far we've come and we're excited to continue this journey with you into the future.

As we enter our 99th year, I often think what my grandfather would make of the locksmith and security industries today. What he'd recognise is our passion for helping customers in business, and showing how a new product can solve a problem – giving consumers peace of mind, and helping you work efficiently. He'd recognise our passionate and trained staff, and our breadth of product offer.

The mind would boggle when presented with online ordering,

online training, electronics adding convenience and functionality into all kinds of security products, and the spread of suppliers LSC works with today. What would a person from 99 years ago make of AI? Our Web team have a very exciting year ahead with improved product search algorithms coming, and more ways to connect and stay in touch with our team, and to get help online.

I saw a sneak preview of our upcoming smart lock installation course, and it's another thing to be excited about as the consumer demand for the convenience of smart locking products skyrockets.

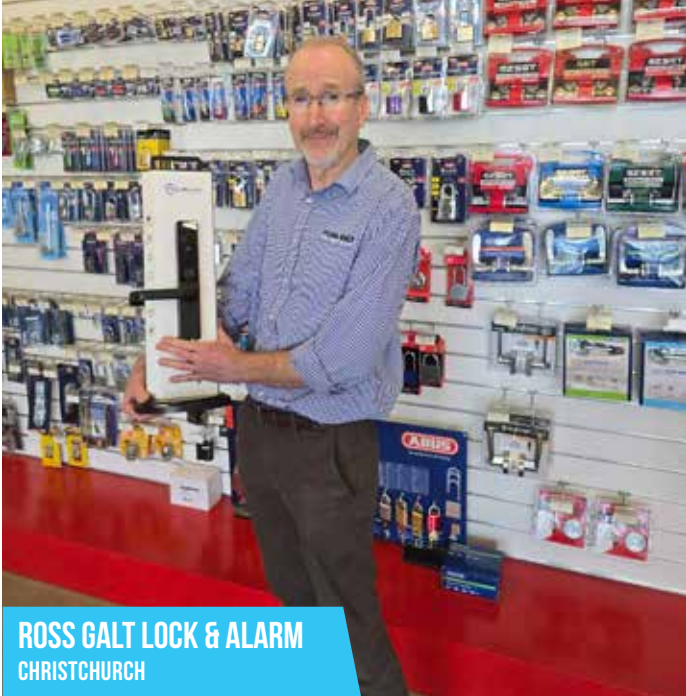

There is so much work out there for businesses which have the capacity to grow and evolve – and we can't wait to help you get a slice of that pie.

I look forward to the chance to meet you at an upcoming event, either in a capital city at one of our branches, or in a regional location with our upcoming program of events.

Mark Johnson

HAPPY CUSTOMERS

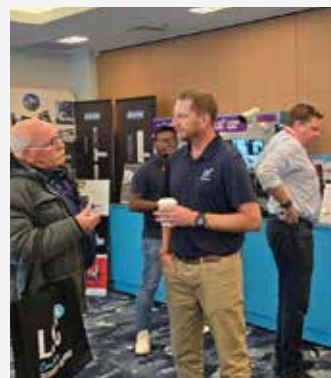

Rob Graham, Projects Manager for Ross Galt Lock & Alarm is pictured here holding their McGrath Hamilton demo lock. Ross Galt Lock & Alarm has found the McGrath Hamilton fits nicely in the commercial market. For more information, please contact your friendly LSC Account Manager or call our Customers Service Team.

Sarah & Kylie from Western Lock Services, with their 100-year anniversary ABUS padlock. They were thrilled to receive this special edition lock, symbolising a century of trusted security and innovation. As long-time ABUS partners, they're proud to continue delivering quality padlock solutions to their customers.

NZ MLAA 2024 TRADE CONFERENCE

The NZ MLAA 2024 Trade Conference brought the industry together, featuring new products and valuable training opportunities. We're looking forward to another great year with more events to connect and support the growth of your business and our industry!
