SMART PRO CABLE

ADVANCED DIAGNOSTICS

Do you have the correct SMART Pro cable for the job?

On select vehicle models when all keys are lost the method of programming keys requires connection to various componentry in the vehicle other than or in addition to the OBD port. Advanced Diagnostics have developed a number of manufacturer specific cables for this purpose.

SMART Pro Chrysler Group 2018 Star Connector Cable

PRODUCT SPOTLIGHT

BDS MAGNETIC GATE LATCH

From the makers of the BDS key switch, the BDS mortice magnetic gate latch is a versatile latching solution for most entry gates.

Designed to be morticed into the gate post, it will work with a standard euro cylinder or a Borg 2000 series sized keypads. It suits 40mm & 50mm posts. When fitted with a BRAVA euro cylinder it is neat and less obtrusive than other gate locks, making it the smallest gate latch solution on the market.

NEW

NEW FROM SILCA:
TAGGY KEYS. OPEN, TAG, CLOSE.

The first key designed for users to tag themselves, and the first key incorporating a key tag.

Available in five colours, in three popular profiles, Silca Taggy keys allow a customer to 'tag' their key such that there's no confusion about what it opens. Suitable for home, shed, gate, garage, holiday-home, padlocks, office, cupboards – the list goes on and on.

Remove keyring clutter and save time, no more guesswork. Order similar coloured taggy keys for groups of locks, or choose different colours to stand out.

Ideal for users who struggle with smaller key heads, the Taggy key features a large head which the user 'snaps' the tag into. End-users are always on the lookout for additional identification methods for keys, and Taggy Keys fits that bill perfectly.

Made in Italy, with Silca's usual high-quality attention to detail. The plastic 'snaps' solidly into place, and is a special grade used in the eyewear industry.

ZANDEN LOCKSMITHS (MOUNT MAUNGANUI)

Michael Zanden of Zanden Locksmiths is pictured here with their latest machine purchase a Silca Duo. Congratulations guys!
The Silca Duo machine is the machine of choice for many locksmiths due to its versatility and will cut many types of keys such as Edge Cut, Mortice, Safe and Flat Projection.
Talk to your Account Manager or our Customer Service Team for more information.

RSB ELECTRICAL TESTING (AUCKLAND)

Adrian from RSB Electrical testing his Salto locks prior to final client handover. RSB Electrical are the newest member of the Salto Dealer Network & have finished off their very first 40 Door Salto XS4 Mini Install. LSC provided initial full onboarding training to complete RSB's certification & were on hand to guide through the onsite programming/commissioning process.
Adrian is very happy with the result & was very pleased with how easy it was to install & program the locks.

ARA HARDWARE (NEW PLYMOUTH)

Jo de Waal of ARA Hardware New Plymouth with their new factory embossed 83/45 padlocks.

INTEGRITY SECURITY (BLENHEIM)

Darren Smith owner of Integrity Security with his well-appointed van.
