Secure bikes, valuables & equipment with the ABUS WCH90 Wall Anchor

The ABUS WCH90 Wall Anchor is a high-security system designed for securing your bikes in your home's garage or outside the house. This robust and economical wall anchor neatly integrates chain and anchor in one system. With the specially hardened steel housing, the wall anchor is firmly anchored in the wall with high-security special dowels, offering an extremely high level of theft protection.

The chain and the housing are made of specially hardened steel, and the chains are available in different lengths. Additionally, the ABUS XPlus cylinder ensures the greatest protection against manipulation, such as picking. The WCH90 Wall Anchor and Chain is easy to handle, and a secure solution for your bikes. The anchor can be used to secure two-wheel vehicles in garages, cellars, and houses, and it's designed for wall mounting only.

Benefits
- Integrated chain and anchor system for easy handling
- Hardened steel housing and chain provide high resistance to attacks
- ABUS XPlus cylinder ensures maximum protection against manipulation
- Textile coating protects against paint damage
- Can be used to secure two-wheel vehicles in garages, cellars, and houses

Features
- Weight: 4.22 kg
- Type of lock: ABUS XPlus cylinder
- Chain diameter: 9 mm (chain)
- Number of keys: 2
- Mounting: Wall mounting only

THE ULTIMATE ELECTRONIC PADLOCK SOLUTION

The SALTO Neoxx G3 electronic padlock is the most advanced and versatile locking system on the market, which is suitable for a wide range of access control applications. With exceptional attention to detail, this electronic padlock offers unbeatable durability and reliability, ensuring that property and valuables are kept safe and secure at all times.

NMP3P48830CPB1

TIME SAVING SOLUTION FOR PROGRAMMING SLOT AND PROXIMITY KEYS TO VOLVO VEHICLES

The dongle connects to the vehicle OBD port and extracts the required security data freeing up SMART Pro for other jobs. The dongle stores the reading session meaning if interrupted it will commence from the previous finish point.

This means that the data could be read over a number of different sessions. The LEDs on the dongle will give a visual indication when the required data has been read. Thereafter keys can be programmed by connecting the dongle to the SMART Pro and following the programming process in the SMART Pro.

SMART CCTV MADE SIMPLE

In a world of heightened concern around surveillance, Milesight is the safe and simple choice for CCTV installation.

Milesight produce a great range of NDAA Compliant cameras and NVR's, which do not use or deploy critical components including SoCs (System on Chips) produced by NDAA banned component vendors. These are recommended for enterprises and critical applications where compliance is essential.

There are huge commercial advantages to installing Milesight, its high-quality range is available to qualified installers only and cannot be purchased online by the general public.

Furthermore, Milesight cameras' vandal-proof metal casing provides superior protection to many competing plastic-encased brands. Most standard Milesight Cameras also feature a full suite of AI features.

Installer's Choice

MULTIPLE APPLICATIONS INCLUDING BUSINESS & RESIDENTIAL

AI Weather-Proof Mini Dome Camera

The AI Weather-Proof Mini Dome Camera is a CCTV installer's bread and butter. Coming in at a very affordable & highly profitable price point for the installer, this model has a huge variety of different uses, including small business, residential and more. This smart, weather and vandal-proof camera features a wide variety of AI features to satisfy your clients' needs.

Narrow To Wide Optical Zoom

ENTRANCES, HALLWAYS, DRIVEWAYS & MORE

AI Motorised Pro Bullet Camera

The AI Motorised Pro Bullet Camera has multiple lenses, allowing users to optically zoom in or out to their desired range, or focus in on something without pixelating the image. It's perfect for applications requiring a longer focal length, such as long-range narrow views, while still allowing the user to zoom out to a wider angle when required. Even in low light, this model still provides an excellent picture and allows smart AI features for analytics and identification.
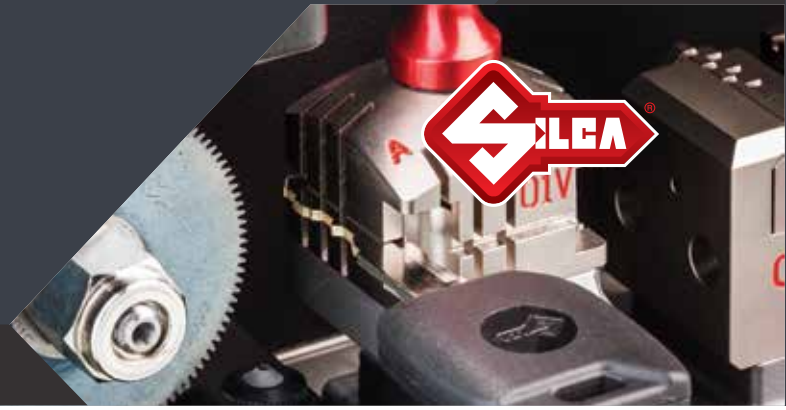

Comprehensive Overhead View

SHOPPING, COMMERCIAL TRACKING, BUSINESS

AI 360° Panoramic Fisheye

The AI 360° Panoramic Fisheye is ideal for commercial, retail or business settings. When used correctly, it alone can do the job of multiple cameras, providing a great option to save your business time and money. It takes a full 360° view of its surroundings, reconfiguring its initial fisheye input into a package of clear, unwarped video segments with zero blind spots. Clients will love this camera's ability to provide analytics for their business, offering features such as heat tracking, people counting and line crossing.

MEET THE
FUTURA FAMILY

A FUTURA FOR EVERY NEED

FUTURA EDGE SD850500ZB
Replace your mechanical code machine, never worry about a card again

Designed to replace the traditional space-and-depth code machine, the Futura Edge includes every card you'll need (and you can make others if you have special keys that are common in your area).

The Edge includes a laser optical reader, so you can decode and re-code old or worn keys, and use the machine as a duplicator – ideal for basic service vans covering residential and commercial needs.

FUTURA AUTO SD8A3235ZB
Just one machine to cut every key

Cut high security track keys, or edge cut automotive keys with one machine and a special set of clamps. Specialist applications such as Tibbe or tubular keys are also covered.

The tablet allows access to all automotive cards and code series, and you can decode and re-code worn keys; or just cut keys to code on site. Reliable, comprehensive, complete. Perfect for your Automotive van.

FUTURA PRO SD847000ZB
The Swiss Army Knife of machines

Dedicated cutting stations for both edge-cut and milled automotive keys, or dimple keys. The Futura Pro gives you the functionality of up to six traditional machines, as it duplicates or code cuts household or automotive edge cut keys, dimple keys, and high security automotive track keys.

Optional jaws allow specialist keys including high security restricted types, or tubular keys to be cut on the same machine. Save space, streamline your operation, simplify training. Codes, series, cards are all included and available through the supplied tablet.

POWERSHIELD DEFENDER SERIES RACKMOUNT

Power Shield®

NEW

The Defender Rackmount expands the successful Defender Range by building the popular features into a Rack Mount NAS UPS perfect for shallow, wall mounted racks.

This versatile UPS uses Automatic Voltage Regulation (AVR) to minimise the effects of fluctuations in input voltage, protecting your valuable equipment from power line disturbances whilst also incorporating the best surge protection in its class.

PSDR800

Merry Christmas

When we were younger, everyone said the world sped up as you got older. As a school kid, Christmas holidays seemed to go on forever (maybe they did then) – but the fact they'll be upon us in what feels like a blink of an eye makes me ask 'where did the year go'? It's been another busy year for our industry, and at LSC.

It's tempting to watch the news and feel nervous about troubles in many parts of the world. While I don't suggest switching off, looking around I'm reminded of the stability and harmony we enjoy here. We are part of that – securing people's property, homes, businesses, vehicles and treasured possessions.

My grandfather started selling locks and keys, and key cutting machines, in Victoria St in North Melbourne in 1926. Offering security products, and assisting customers to provide a wide variety of security solutions to homes and businesses is in our DNA.

I sometimes think about what my grandfather would have thought of the evolution in mechanical solutions,

and the rise of electronics (keypads, electric strikes, surveillance, alarms, credentials, and smart, connected solutions). It makes me think of how far the world has moved, yet at the same time we still want the same basic thing - security.

We continue to invest in our people, our systems and our products to ensure you can easily access the very best the world can offer our industry. We reject products every single day – so you can be assured that the ones we offer are the best in their class.

I'm very excited about the ongoing viability and vibrancy of our industry. The opportunities to provide security feel endless, and never before could you enjoy such a wide range of solutions to suit every need.

Lastly, thank you for your ongoing support and custom. I wish you all the very best for Christmas and a Happy New Year.

- Mark Johnson

MLAA WRAP UP

Thanks to everyone who visited us up in Cairns for the MLAA National Conference & Trade Expo 2023!

Cairns was a popular destination as over 400 attendees packed into the Pullman International over the 2 days of the Conference. The biggest event on the locksmithing calendar didn't disappoint, the program included a great mix of business and skills sessions, a trade exhibition and the opportunity to network with old colleagues, friends and suppliers.

We congratulate Sam Ellison from John Barnes Locksmiths in Melbourne for winning the prestigious John Andrew Apprentice of the Year competition. Jointly sponsored by Silca, ABUS & LSC, Sam and his mentor, John Hassler, will receive an all-expenses paid trip to Silca factory in Veneto, Italy & ABUS' factory in Wetter, Germany.
It was great to bring along so many of our friends from ABUS, Silca, SECURAM, SALTO Systems and WH Software. We certainly hope you enjoyed our Complete range of Security Solutions that we showcased across our stands, plus in our showbus - STU.

We'd also like to congratulate Steve Arias from SAS Locksmiths for winning the A.L. Chantry Memorial Award for the Pursuit of Excellence. Plus, Michael McGovern from Independent Locksmiths, who was awarded with MLAA Life Membership.

This event is always a privilege to reconnect with so many friends and associates within the industry; thank you for making this event such an enjoyable one!

RISCO

RisControl
Controller for Alarm & Smart Automation

AVAILABLE NOW

CHOOSE WISELY, LIVE SMARTLY!

Meet the new RisControl Controller from RISCO Group; the ultimate integrated solution that combines professional hybrid panel control with advanced smart home and video solutions.

This 8-inch intuitive touchscreen keypad is designed for use with the LightSYS Plus hybrid security system for alarm and surveillance control, as well as a wide range of Z-Wave smart home devices including light bulbs, door locks, thermostats, blinds and smart plugs.

Unlike other integrated Alarm and Z-Wave controllers on the market, the RisControl Z-Wave touchscreen can be used as a standalone product – making it the perfect solution for installers seeking to enter the smart home automation market.
