ABUS ALARMBOX 2.0

Simple anti-theft device for a variety of uses

The ABUS AlarmBox 2.0 is a versatile and compact security device designed to protect your belongings from theft. Battery operated it is equipped to detect vibrations and movement. Once activated, it emits a loud 100dB alarm for 15 seconds if it senses continued movement, which helps alert you to potential theft.

AlarmBox 2.0 can be mounted to a wide range of items like bags, push bikes, camping equipment, gas bottles, BBQ's or anything that you would like protect. Once armed the Alarmbox detects movement & gives an audible warning if movement persists it triggers a 100dB alarm for 15 seconds, alerting the owner of potential theft.

Now available in 3 models, the AlarmBox 2.0, AlarmBox 2.0 with Cable & AlarmBox 2.0 with Chain.

Know when your valuables are moved!

2-in-1 alarm & locking system

When a thief is on the prowl, they want to attract as little attention as possible. That's exactly where this portable alarm system can deter theft and alert you to issues.

Features:

- Alarm function with min. 100 dB for 15 seconds, followed by reactivation.
- 3D Position Detection - alarm system that detects vibrations and the smallest movements in all three dimensions and triggers the alarm.
- Smart alarm – the AlarmBox 2.0 only emits a small warning beep in the event of minor and brief vibrations.
- CR2 battery included and connection option for ABUS adapter chains and cables.

STREAMLINE SENDING JOBS *ProMaster8 to Silca Unocode*

TECH TIP

Over the past few months, Silca and WHS have been collaborating to enhance the user experience and functionality when sending jobs from ProMaster8 to the Unocode F-Series machines.

What's about to be released will be a way to enable direct communication from PM8 to the Unocode F-Series machines.

What this means is PM8 sends direct to the machine, and sending data is about 7 times faster – very noticeable on large systems.

ProMaster8 will also be able to read the current 'queue' from the UCF machine and view it in PM8 with the option to remove jobs from the queue.

Even better is the ability to associate marking and engraving models from the UCF with key profiles in PM8 so the correct engraving model is used automatically when sending a job to the UCF. This works the same as it does for the Marker 2000.

You'll also be able to search your local network to find your UCF machine.

Talk to your account manager or our Tech Support to check what versions of machine SW and ProMaster8 are required.

HOUSE FOR HOUSE KEYS

Get the house key for the house!

Consumers are always looking for different ways to identify their popular keys. Silca offer keys in different materials, colours, styles, shapes and designs – and the newest one is fun, and instantly recognisable.

House For House keys are available in LW4 and LW5 profile, and feature a large, easily recognisable head that looks like a house.

Made from premium special-brass alloy, the same as you're used to, these keys can be stamped or marked as they've got a large square area – or let the head-shape do the talking.

ABUS CABLE SHACKLE (NEW LONGER 120 CM MODEL AVAILABLE)

Increase the functionality of your ABUS 83/45 or 83AL/45 series padlocks with the NEW Flexible Cable Shackle. Increase the flexibility of Australia's most trusted commercial padlock by simply replacing the shackle of any ABUS 83/45 or 83AL/45 with the new Cable Flexible Shackle. Great for securing items that require a little more flexibility than a rigid shackle.

SALTO CREDENTIALS

Salto Advises Transition to MIFARE DESfire® for Enhanced Security

Salto Systems has issued a credentials security advisory urging clients and partners to switch from MIFARE Classic® to the more secure MIFARE DESfire® technology. This recommendation addresses recent developments that make cloning non-secure credentials, like MIFARE Classic®, easier.

Adopting MIFARE DESfire® is crucial for maintaining high security standards in access management systems and protecting valuable assets. To facilitate this transition, Salto has introduced a cost-effective 2K version of DESfire credentials through LSC.

Salto also advises updating lock firmware to counteract emerging cloning tools and attack vectors. While this update may not resolve all MIFARE Classic® security issues, it will help reduce new vulnerabilities.

For more information, please contact your local account manager.

MLAA CONFERENCE

ADELAIDE CONFERENCE

EVENT WRAP UP | ADELAIDE, 2024

The biggest event on the locksmithing calendar in 2024 did not disappoint, with the best-in-the-business flocking to Glenelg, Adelaide for the 2024 MLAA National Conference & Trade Expo at the Stamford Grand Hotel. This year's program included a great mix of business and skills sessions, a trade exhibition and the opportunity to network with old colleagues, friends and suppliers.

We approached this year and event with a clear purpose: to be your partner in locksmithing. We were delighted to unveil exciting products, including McGrath Locks digital locks & Silca Quattrocode. Both fill needs in the New Zealand market & complement our product range, helping us be your one-stop-shop.

As always, key cutting machines from Silca were a huge drawcard. We were also

delighted to hand out our newly launched, comprehensive BRAVA & BDS catalogues.

This year was special as ABUS celebrated its 100-year anniversary. Renowned for quality, ABUS is a New Zealand industry icon, recognised for its support of locksmiths. Attendees enjoyed personalised, hand-engraved commemorative ABUS padlocks at our stand and a showbag of unique gifts to mark the occasion.

We congratulate Toby Simpson from Salisbury Locksmiths in South Australia for winning the prestigious John Andrew Apprentice of the Year competition. Jointly sponsored by Silca, ABUS & LSC, Toby and his mentor, Leon Taylor, will receive an all-expenses paid trip to the Silca factory in Veneto, Italy & ABUS' factory in Wetter, Germany.

It was great to bring along so many of our supplier friends, many of whom travelled internationally for the occasion. Industry experts from ABUS, Silca, McGrath Locks, SECURAM and Salto Systems were all in attendance. We certainly hope you enjoyed our complete range of Security Solutions that we showcased across our stands.

This event is always a privilege to reconnect with so many friends and associates within the industry; thank you for making this event such an enjoyable one!

Kim from Tokoroa takes part in honoring ABUS's 100-year milestone at the Master Locksmiths conference in Adelaide.

VALE PAULINE MASON

We wanted to acknowledge the passing of Pauline Mason from Farrand and Mason in Dargaville earlier this year.

Pauline was a very courageous person who had been in poor health for several years, but you would never know. She never gave up and always had a joke to tell with a welcoming smile.

It was a pleasure dealing with Pauline and we offer our sincerest condolences to Kevin, Chris and Doug along with the entire team at Farrand & Mason.

Rest in peace Pauline.
